IGNIS
COMPACT URBAN SUV

THE TOUGH URBAN

It's new. It's tough. Tough enough to take on the urban chaos. The busy roads. The narrow lanes. In the concrete jungle, it's a species that doesn't bow down to these elements. But moves through them. Quickly. Easily. With a design that's perfect to take on the rugged terrains of this habitat. Presenting the New Ignis. Compact Urban SUV.

IT'S TOUGH. IT'S SPORTY.

Spotting the New Ignis in the chaos is quite easy. With an Imposing Chrome Grille and Sturdy Front Skid Plate, it makes its presence felt in every corner, leaving those who glance upon it in awe. Get ready for attention as you zip through the streets.

STANDS HIGH. LOOKS TOUGH.

The New Ignis has a Striking Rear Spoiler and a Sturdy Rear Skid Plate, which makes for a wider and tough look. The high SUV like stance makes the Ignis easy to get in and out off. Moreover, its higher seating gives you better visibility. It's a car that looks tough and is easy to manoeuvre through any road.

SPACIOUS AND COMFORTABLE

It's a tough world out there. But thankfully the story is different inside the New Ignis. The spacious cabin and comfortable interiors will keep you calm, no matter what's outside.

SMARTPLAY STUDIO

The Smartplay Studio allows you to text, call, play music and navigate easily through the city using steering mounted controls, or by simply using your voice*. Not only this, the feed from the rear camera allows you to easily park the car in the toughest of spots.

*Application features and displays may vary depending on different operating systems or Smartphone devices being used. Avoid using the phone while driving for your safety.

AUTOMATIC CLIMATE CONTROL

The New Ignis is always comfortable as the Automatic Climate Control feature maintains the desired temperature for you.

Configure the New Ignis in three simple steps and truly make it your own. [Click to know more.](#)

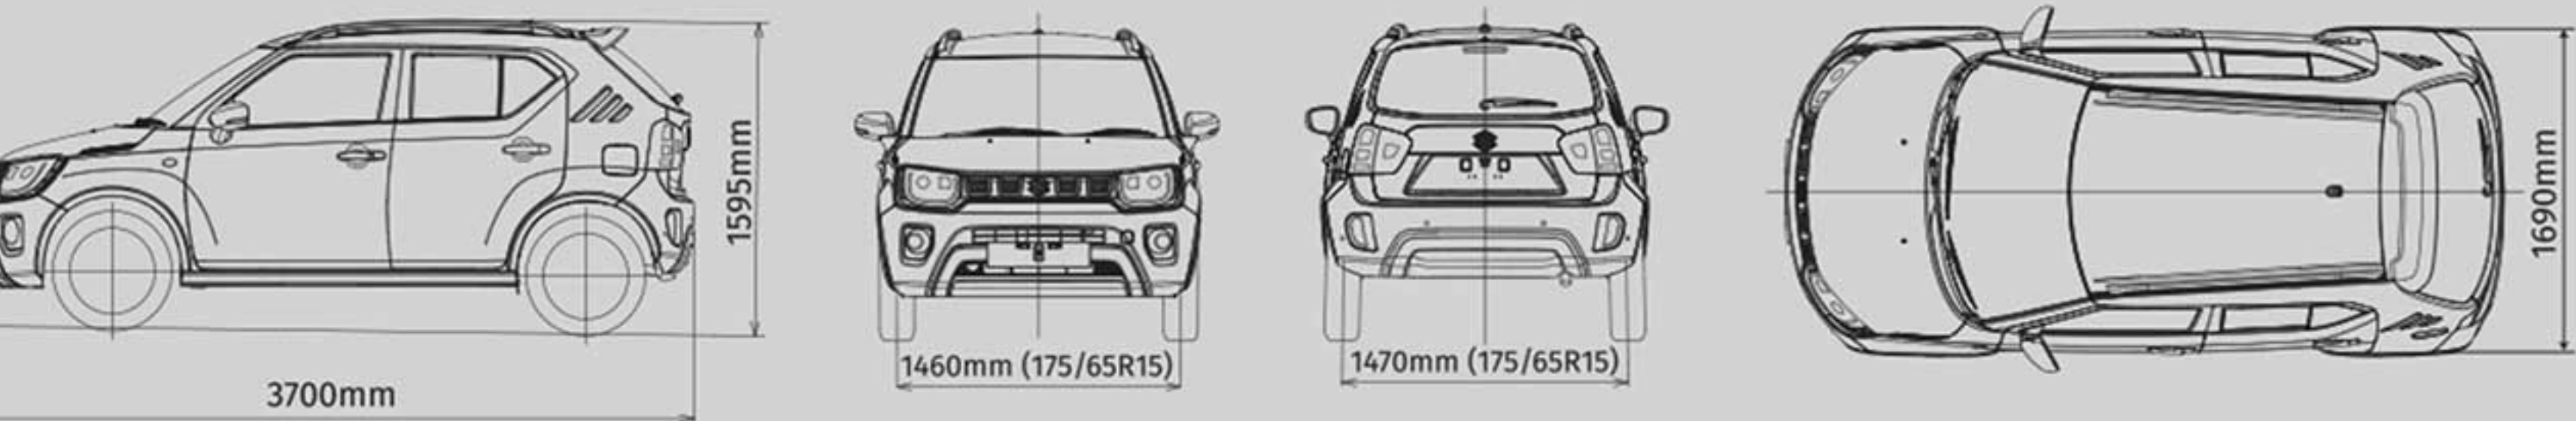

Now available in new Lucent Orange and Turquoise Blue colours.

^If the vehicle's speed exceeds 80 km/h, then the primary level warning will beep twice every minute. If the speed goes above 120 km/h, the secondary level warning will keep beeping. If the vehicle's speed slows down to 118 km/h, primary warning will resume. If the vehicle is slowed down to 78 km/h, speed alert warning will stop. This buzzer does not indicate any malfunction in the vehicle. Images used are for illustration purposes. Images shown are creative visualisation.
